Cook Inlet Area

2022 Parallel Pacific Cod Seasons Close December 31

2023 Parallel Pacific Cod Seasons Open January 1

Emergency Order # 2-GF-H-02-23

The Cook Inlet Area (CI) parallel Pacific cod seasons for pot, jig, and longline (for vessels less than 50 feet in length) gear will close at midnight December 31. The 2023 parallel Pacific cod seasons will immediately open to vessels using pot, jig, and longline gear at 12:01 a.m. January 1. Parallel Pacific cod seasons are established via emergency order (EO) to coincide with the season dates and gear types set by the National Marine Fisheries Service (NMFS) for the initial Pacific cod season in the adjacent federal Central Gulf of Alaska Regulatory Area (CGOA). The parallel Pacific cod season will close by EO for each gear type to coincide with respective gear sector closures in the federal CGOA.

Fishers are reminded: 1) to obtain a Cook Inlet Area parallel Pacific cod season registration from Alaska Department of Fish and Game (ADF&G) prior to fishing; 2) of the requirement for fishers using pot or longline gear in parallel Pacific cod fisheries to have a functioning, activated, NMFS-approved vessel monitoring system (VMS) as described at <https://www.fisheries.noaa.gov/national/enforcement/regional-vessel-monitoring-information> and, 3) to adhere to the federal seabird avoidance measures (SAM) which are required in all longline fisheries for groundfish in the North Gulf District of the Cook Inlet Area. Additional information describing SAM can be found at <https://www.fisheries.noaa.gov/alaska/bycatch/seabird-avoidance-gear-and-methods>.

Registrations are available in ADF&G offices in Homer, Cordova, Anchorage, Soldotna, and Kodiak and may also be completed by fax or e-mail. Contact the Homer office with groundfish regulatory and registration questions (907-235-8191).

NMFS continues to prosecute the North Pacific Groundfish and Halibut Observer Program. Vessel operators participating in parallel groundfish fisheries are encouraged to become familiar with this federal program. Information on the observer program can be found at <https://www.fisheries.noaa.gov/alaska/fisheries-observers/north-pacific-observer-program> or by contacting the NMFS Sustainable Fisheries Division in Juneau at (907) 586-7228.

Regulation 5 AAC 28.350 (b) closes certain waters on the west side of Cook Inlet and within Kachemak Bay to groundfish pot gear (Figure 1).

Two rookeries within the Cook Inlet Area, Outer (Pye) Island and Sugarloaf Island remain closed to fishing with pot or longline gear during a parallel Pacific cod season to protect Steller sea lions (Figure 2). Waters within three nautical miles (nmi) of these locations are closed to vessel transit and waters within 10 nmi of these locations are closed to fishing with fixed gear via emergency order. Contact NMFS in Kodiak at (907) 481-1780 or consult the NMFS website at <https://alaskafisheries.noaa.gov/fisheries/sslpm>.

-continued-

Bycatch limits by species or species aggregate for the Cook Inlet Area are set by Emergency Order 2-GF-H-01-23 and may be found in the Central Region Groundfish Fisheries Outlook Advisory Announcement.
